

## Current and Past Projects

### Yard Planning

For the Deutsche Bahn (German Railways) SIGNALSOFT developed a brand new and innovative Yard Planning System

### Infrastructure Timetable

In combination with a Signal Box Simulator SIGNALSOFT was asked to run a comprehensive simulation for timetabling in the Cologne Central Station

### Driver Simulator

SIGNALSOFT was responsible for the Project Management and acted as a Subject Matter Expert for a high end Train Driver Simulator

### LARA (Logical and Advanced Resource Alignment)

LARA is a special tool for Asset Planning, Yard Planning, Staff Planning and Management.
